

PROFESSIONAL SUMMARY

Experienced Protection & Control Engineer with a strong foundation in electrical engineering and 7 years of progressive responsibility. Expertise in Cable Sizing, Power Systems Analysis, Substation Design (132kV/400kV). Committed to delivering safe, reliable and sustainable energy solutions.

CORE COMPETENCIES

• Cable Sizing	• Power Systems Analysis	• Substation Design (132kV/400kV)
• Commissioning & Testing	• Switchgear Selection	• DCS Configuration
• Load Flow Analysis	• Primavera P6	• Tariff Analysis
• O&M; Management	• SQL Database	• IoT Integration

PROFESSIONAL EXPERIENCE

Lead Electrical Engineer

Kalpataru Power

2022 – Present

- Enterprise SCADA Upgrade — Migration from legacy to modern SCADA/DCS platform across 2 generation units
- Substation Automation — IEC 61850 based protection and control implementation at 10 EHV substations
- 400kV GIS Substation at Noida — Design, procurement and commissioning of 6×315 MVA auto-transformers with numerical protection
- Reduced system downtime by 7% through predictive maintenance implementation

Electrical Engineer

IRCON International

2017 – 2022

- 50 MW Utility Solar PV Plant at Noida — EPC project from design to commissioning including SCADA integration and grid synchronization
- Load Forecasting Model — ML-based short-term load forecasting achieving 5% MAPE for a 9 MW utility
- Distribution Network Strengthening — R-APDRP project covering 3 feeders with automated fault detection and restoration
- Demand Response Program — Implementation across 16 industrial consumers achieving peak demand reduction of 12 MW
- Successfully executed first BESS project in the state

EDUCATION

M.Tech (Power Systems Engineering)

RV College of Engineering

2015

CERTIFICATIONS & TRAINING

- ✓ Wind Energy Practitioner Certificate (NIWE)
- ✓ NEBOSH International General Certificate
