

PROFESSIONAL SUMMARY

Results-driven Solar Project Engineer with 15+ years of experience in India's power sector. Proven track record in Transformer Engineering and Commissioning & Testing. Delivered complex projects across generation, transmission and distribution segments.

CORE COMPETENCIES

• Power Quality Analysis	• Transformer Engineering	• ETAP Software
• Single Line Diagram	• HMI Development	• Commissioning & Testing
• Short Circuit Analysis	• Metering & Instrumentation	• Wind Turbine O&M;
• Offshore Wind Design	• Hybrid Energy Systems	• WASP Software
• Solar Irradiation Analysis	• EV Charging Infrastructure	• Power BI
• Digital Twin Modeling		

PROFESSIONAL EXPERIENCE

- Deputy Manager Renewable Energy Engineer

Power Finance Corporation

2019 – Present

 - EV Charging Network — Design and deployment of 16 EV charging stations across Bangalore with load management integration
 - Distribution Network Strengthening — R-APDRP project covering 4 feeders with automated fault detection and restoration
 - Renewable Integration Study — Grid impact assessment for 18 MW solar/wind addition including dynamic stability analysis
 - 50 MW Utility Solar PV Plant at Bangalore — EPC project from design to commissioning including SCADA integration and grid synchronization
 - Received Best Engineer Award at Amp Energy in FY 2020
- Solar Project Engineer

KEC International

2017 – 2019

 - ESG Baseline Assessment — Carbon footprint quantification and net zero roadmap for 3 MW generation portfolio
 - Enterprise SCADA Upgrade — Migration from legacy to modern SCADA/DCS platform across 11 generation units
 - Smart Metering Rollout — Installation and commissioning of 13+ smart meters with AMI integration and MDM platform
- Solar Project Engineer

KEC International

2014 – 2017

 - Demand Response Program — Implementation across 19 industrial consumers achieving peak demand reduction of 3 MW
 - Protection Relay Replacement Program — Digital relay retrofitting across 20 substations improving fault clearance time by 40%
 - Distribution Network Strengthening — R-APDRP project covering 12 feeders with automated fault detection and restoration
 - 400kV GIS Substation at Bangalore — Design, procurement and commissioning of 4×315 MVA auto-transformers with numerical protection
- Energy Storage Specialist

Schneider Electric India

2010 – 2014

 - 400kV GIS Substation at Bangalore — Design, procurement and commissioning of 17×315 MVA auto-transformers with numerical protection

- Demand Response Program — Implementation across 17 industrial consumers achieving peak demand reduction of 5 MW
- Demand Response Program — Implementation across 16 industrial consumers achieving peak demand reduction of 3 MW
- Protection Relay Replacement Program — Digital relay retrofitting across 16 substations improving fault clearance time by 40%

EDUCATION

M.Tech (Electrical Engineering)

2008

PES University

CERTIFICATIONS & TRAINING

- ✓ Chartered Engineer (IE India)
- ✓ PMP (Project Management Professional)
- ✓ GE Grid Solutions Certified
