

Harsh Patel

Substation Automation Engineer

Tata Power | 15 years experience
Bangalore, India
Email: harsh.patel@gmail.com

Experienced professional specializing in Renewable Energy, Grid Infrastructure, Electrical Engineering, Smart Grid Technologies, and Power Systems Optimization.

Core Skills
Python for Energy Analytics
Grid Code Compliance
Wind Energy Integration
ETAP
Smart Metering
Substation Automation
Electrical Protection Systems
Predictive Maintenance

Professional Experience

- Led renewable energy integration projects across transmission networks.
- Implemented SCADA and IEC 61850 based substation automation systems.
- Performed energy audits and improved grid efficiency using predictive analytics.
- Worked on solar and wind energy projects with smart grid integration.

Education: B.Tech/M.Tech in Electrical Engineering

Certifications: Renewable Energy Systems, Smart Grid Technologies, Python for Data Science
