

Vikram Joshi

Grid Stability Engineer

Torrent Power | 10 years experience

Pune, India

Email: vikram.joshi@gmail.com

Experienced professional specializing in Renewable Energy, Grid Infrastructure, Electrical Engineering, Smart Grid Technologies, and Power Systems Optimization.

Core Skills
Solar PV Design
Substation Automation
IEC 61850
Predictive Maintenance
SCADA
Grid Modernization
Python for Energy Analytics
Power Systems Analysis

Professional Experience

- Led renewable energy integration projects across transmission networks.
- Implemented SCADA and IEC 61850 based substation automation systems.
- Performed energy audits and improved grid efficiency using predictive analytics.
- Worked on solar and wind energy projects with smart grid integration.

Education: B.Tech/M.Tech in Electrical Engineering

Certifications: Renewable Energy Systems, Smart Grid Technologies, Python for Data Science
