Kochi, India

PROFESSIONAL SUMMARY

Dedicated power sector professional with 17 years of hands-on experience specializing in Relay Testing and Cable Sizing. Passionate about India's energy transition and digital transformation of the power sector.

CORE COMPETENCIES

• Relay Testing	• Switchgear Selection	• RTU Programming
• Cable Sizing	• Substation Design (132kV/400kV)	• IED Configuration
• Metering & Instrumentation	• Protection Scheme Design	• FACTS Technology
• Synchrophasor	• Demand Response Management	• Wide Area Monitoring
• Grid Code Compliance	• Smart Metering	• Cloud Platforms (AWS/Azure)

PROFESSIONAL EXPERIENCE

Chief Transmission Engineer 2019 – Present
WBSEDCL

- Digital Twin Implementation — Real-time digital twin of 4 MW thermal plant for predictive maintenance and optimization
- EV Charging Network — Design and deployment of 11 EV charging stations across Kochi with load management integration

Transmission Engineer 2018 – 2019
Waaree Energies

- Green Hydrogen Pilot — 12 MW electrolyzer feasibility study and FEED for renewable hydrogen production
- ESG Baseline Assessment — Carbon footprint quantification and net zero roadmap for 4 MW generation portfolio
- ESG Baseline Assessment — Carbon footprint quantification and net zero roadmap for 13 MW generation portfolio
- Protection Relay Replacement Program — Digital relay retrofitting across 8 substations improving fault clearance time by 40%

Transmission Engineer 2017 – 2018
JSPL Power

- ESG Baseline Assessment — Carbon footprint quantification and net zero roadmap for 19 MW generation portfolio
- 132kV Transmission Line (12 km) — Tower design, foundation engineering, stringing and commissioning for interstate grid connectivity
- Saved ₹7 Cr annually through energy audit recommendations

Grid Modernization Engineer 2013 – 2017
GE Vernova India

- EV Charging Network — Design and deployment of 9 EV charging stations across Kochi with load management integration
- Grid Stability Enhancement — FACTS device (SVC ±9 MVAR) installation improving voltage profile across 10 substations
- Renewable Integration Study — Grid impact assessment for 8 MW solar/wind addition including dynamic stability analysis
- Trained 11+ engineers on digital tools and safety practices

EDUCATION

M.Tech (Power Electronics) 2006

CERTIFICATIONS & TRAINING

- ✓ OHSAS 18001 Internal Auditor
- ✓ AutoCAD Certified Professional
- ✓ Power Systems Simulation (DigSILENT)
